

spread the word

linkedin, facebook and Twitter are great places to spread the word

Start off easy by simply posting a link to the website on social media. Friends and family will see that you can help them with their energy bills and click through to visit the website. They may even share your link.

Everyone who visits and submits their contact information will get a free solar consultation. You will get credit for the referral and receive your payment if they sign a Green Solar Technologies contract and have a solar power system installed on their home.

Making a List

You probably have lists of people on your computer, on your phone, email address book or in a planner. Every single one of them is a potential customer.

Holiday card list _____
Address book _____
Day timer, planner _____
List of coworkers _____
Church, Temple or Mosque directory _____
